Christina,

This looks good to me, but my understanding is that we have received a notice of intent to sue under ESA for this action and could be sued under FIFRA as well. Given these recent developments, I think OGC should review the letter before it goes out. I have a meeting with them at 12 today and will discuss and get back to you regarding their input. Thanks.

Hi there,

The attached letter went up the review chain and came back with some comments after getting jammed up a bit. I am attaching a redline version so you can see the edits made, they are minor, and also the clean version. It was suggested by the OCSPP IO that I add in some leading words for some of the paragraphs as well. The incoming letter is also attached.

This is moving again, so if I could get your feedback by COB Tuesday, that would be much appreciated!

Thank you!

Best,  
Christina
